

Convincingly simplistic.

The combination of the two levels in many finishes gives the CT 160 its distinctive style. The lower top is available in five lacquered and wooden finishes. One of three available

plinth versions brings it to the required height. The upper top is available in three different beautiful types of glass.

A design with exceptional appeal.

A coffee table invites you to sit around it and make yourself comfortable. The CT 150 meets all of the requirements: an attractive design that grabs the attention, a successful

combination of precious materials and striking craftsmanship. Available in a wide choice of finishes, it perfectly adapts to your hülsta living room.

COFFEE TABLES

Version: grey lacquer, clear glass

CT 160

CT 160

CT 160

- 1 Two grey lacquered squares supported by a low plinth with a clear glass top provide an interesting alternative to a rectangular coffee table.
- 2 The large white lacquered rectangle looks like an exhibit of Optical Art. The Optiwhite clear glass top is a perfect addition. 8.0 cm high castors allow the coffee table to be easily moved.
- 3 Stained glass tops add an elegant touch to the two sand lacquered squares, providing greater impact for the upper level. The lower level appears to be floating on the 10.3 cm high plinth.

CT 150

CT 150

CT 150

- 1 This image shows a particular attraction of the CT 150: The stained glass superstructure shows the wooden top underneath, which is available in alder and solid oak to match CARVA. In its square shape, the coffee table is 80.0 cm x 80.0 cm.
- 2 The optional drawer fits into the larger compartment created by the glass top and features a wooden bottom. The leather top cover is available in white or grey-brown.
- 3 The rectangular version of the CT 150 coffee table offers more storage space: The glass and wooden tops are 110.0 x 80.0 cm each. The coffee table is 35.0 cm high including the 22.0 cm high superstructure, with the compartments underneath the glass top offering practical storage.
- 4 If you choose CARVA with leather-covered hinged doors, the CT 150 coffee table with drawer will be the perfect choice. The top of the drawer is covered in genuine Nappa leather and therefore perfectly matches this CARVA design feature.

Version: solid natural oak, stained glass, grey-brown leather

A valuable all-rounder for the living room.

A simply unbelievable coffee table concept! The 100 cm square coffee table or the 120 cm by 80 cm rectangular version will be the centrepiece of your living room. The lower surface comes in white lacquer, brown-black lacquer, light brown ash, core walnut, natural oak and amberwood,

the top one in white lacquer, brown-black lacquer, grey lacquer or cocoa lacquer. The tabletop can be adjusted to any height and even be pushed aside. Underneath, there is a practical compartment, which can even be fitted with interior lighting if required.

Version: white lacquer, core walnut

CT 140

1 The special trick in the CT 140 is the storage compartment under the movable tabletop. It is fully lined with genuine leather inside and can even be lit if required. That is not only a surprising aesthetic effect but also very practical if you're looking for something in the compartment in the dark. The light is battery powered to avoid unsightly cables. The light switches itself on and off automatically.

2-5 The CT 140 is adjustable to any height between 46 cm and 61 cm thanks to the manual trigger switch fitted invisibly under the top shelf. It allows an easy transformation into the required functional unit: an ancillary table or a desktop or even a butler for a long evening spent in front of the TV.

Umistakably natural accents.

The CT 130 coffee table offers a distinctively attractive characteristic: the all-round "belt", which is shown at its best in a different finish to the table top. It is available in different

wood finishes. Featured in the centre of a white lacquered table top, it draws the eye to the elegant frame. On a wooden table top, it perfectly underlines the beautiful material.

CT 130

1 The CT 130 is supported by a cross-shaped frame, which – like the lower table top – is always supplied in lacquer. The upper table top is available in several finishes. The central wooden feature comes in structured beech or core walnut.

CT 130

CT 130

2 The CT 130 in a rectangular instead of square version in size 120 x 70 cm. The combination of the white lacquered table top and the walnut frame adds a particularly fresh and contemporary feel.

3 A completely different look using almost the same components. The white lacquered table top beautifully highlights the central wooden feature. The two 70 x 70 cm table tops offer plenty of space.

CT 130

Invitation for a relaxed get-together.

Cocooning, the retreat to privacy, is a young, upcoming trend. Many people also like the distinctive, steeped in tradition German "Gemütlichkeit" (cosy atmosphere).

hülsta's coffee tables CT 120 and CT 130 take a fresh approach with an appealing design. Typical hülsta.

A question of style. On several levels.

hülsta coffee tables feature an uncompromisingly clear, puristic and intelligent design. The different levels seem

to float, defying gravity, whilst the beautifully clean and simple lines of the coffee tables are irresistibly attractive.

CT 120 Version: solid walnut

- 1 An interesting design feature! The CT 120 is optionally available with a drawer the size of the entire table top. Underneath the bronzed glass, beautiful objects can be displayed to great effect on the veneered drawer shelf.
- 2 Less is more! The CT 120 with its clean and simple lines and the solid wood frame provides a stunning visual impact even without the drawer. Available in 70 x 70 cm, 90 x 90 cm or – as a slightly larger version – in 120 x 70 cm.

CT 120 Version: solid structured beech

CT 110 Version: white lacquer, black lacquered glass

CT 110 Version: natural oak, white lacquered glass

CT 110 Version: cherrywood gold, black lacquered glass

- 1 The CT 110 matches your individual requirements. The lower table top can be supplied in white or sand lacquer, natural oak, light brown ash, cherrywood gold and core walnut; the upper table top is available in black, grey, sand or white lacquered glass.
- 2 Square or rectangular – your choice. In both cases, the pair of table tops are equal in size: 70 x 70 cm, 90 x 90 cm or 120 x 70 cm.
- 3 A flexible alternative: instead of the fixed 35 cm high version, we also offer the CT 110 with step-less height adjustment from 40 to 55 cm height. A manual lever underneath the upper table top allows easy height adjustment.

Coffee table or piece of art?

Some objects are so interesting when it comes to their shape, the material used or the way they have been made, that you simply cannot stop looking at them. They would

normally be found in an art gallery – or possibly now in your living room.

The heart of the living room.

A coffee table can be anything, a functional asset in the design of the living room or an extravagant central highlight.

All tables shown however have one thing in common: they are perfect down to the last detail.

CT 90

Table top: white lacquered glass
 Revolving drawer: structured beech
 Lower table top: white lacquer supported by a high-gloss chrome frame

1 A fabulous idea – the revolving drawer (now optionally available with LED lighting) of the coffee table offers ample storage behind beautiful structured beech. Also available with a black, brown-black, sand, white, cream, grey or cocoa lacquered upper glass table top without revolving drawer.

2 This coffee table, available with white, black, brown-black, sand, cream, grey or cocoa rear-lacquered glass top, gives the impression of being a beautiful mirror. The practical walnut revolving drawer cleverly hides bits and pieces that you do not want to see.

CT 90

Table top: white lacquered glass
 Revolving drawer: walnut
 Lower table top: white lacquer supported by a high-gloss chrome frame

Square or rectangular: the 45.0 cm high CT 10 is available in 70 x 70, 90 x 90 and 120 x 70 cm. The upper table top is available in wood, sand or white rear-lacquered glass, in clear glass, satinized or stained glass. The lower table top is always made from wood.
